

Technical Sheet

Modular rug; its surface can be created either joining lengthwise: braids in solid colors, two-color or mélange of cm 18 width, braids in solid or mélange colour of cm 10 width, or alternating these last ones with one- or two-colour cords in the same yarn. The borders corresponding to the braids extremities are finished with a ribbon in the same yarn, in the prevailing colour of the rug. Only one colour for the braids and one colour for the cords can be chosen.

Special notes:

- The width of the braids of cm 10 may vary between cm 10,5-12, due to the braiding technique. The dimension of the short side is determined by the multiple of the braids and will often vary. The length of the other side will be more precise into the $\pm 3\%$ range and determined according to the client's requirements.
- The textile structure of this rug is free. An intense stepping may cause a variation of the rug's dimensions.

TRECCE cm 18

TRA05

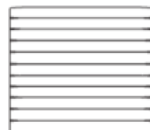

cm 176/198 x 200
69/78" x 79"

TRA03

cm 80/90 x 200
